Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 through 105 are rejected under the judicially created doctrine of obviousness-type double patenting as being

unpatentable over claims 1 through 132 of U.S. Patent No. 5,830,068; claims 1 through 59 of U.S. Patent No. 6,004,211; and claims 1 through 123 of U.S. Patent No. 6,089,981. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are broader in scope of the same patented claims recited in the above U.S. Patents.

Claims 1 through 105 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 through 115 of copending Application No. 09/373,120. Although the conflicting claims are not identical, they are not patentably distinct from each other.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1 through 4, 10 through 14, 22 through 36, 65 through 82, and 94 through 100 are rejected under 35 U.S.C. 103(a) as being unpatentable over Algie, U.S. Patent No. 5,564,977 in view of Ueno, U.S. Patent No. 5,746,657.

Algie discloses the broadly claimed invention except the reference lacks clearly disclosing a place to make wagers; although the reference discloses a keyboard connected to the system. In analogous device, Ueno discloses a place to make wagers. It would have been obvious to apply the teachings of Ueno to the disclosed system of Algie in order to permit bettors to make wagers on the information supplied by Algie's system.

Claims 5 through 9, 15 through 21, 37 through 64, 83 through 93 and 101 through 105 are rejected under 35 U.S.C. 103(a) as being unpatentable over Algie and Ueno as applied to claims above, and further in view of Handelsman, U.S. Patent No. 5,539,450.

Although Algie and Ueno disclose advertising, they lack clearly disclosing the ability to permit players to purchase merchandise and to have accounts for betting and shopping. In an analogous device, Handelsman teachings such features in a system that permits gaming and shopping among other things. Therefore, it would have been obvious to one of ordinary skill in the art to apply the teachings found in Handelsman to the

Art Unit: 3713

system of Algie and Ueno, in order to capitalize on the "spur of the moment" want of players seeing the products for sale.
